## To Whom It May Concern:

I, André du Plessis, member of Andre du Plessis Estates CC am involved as marketing agent for Renico Construction (Pty) Ltd., the developer, in The Gables Office Estate development. I am also the new owner of the restored "Waenhuis" on the premises.

West Rand Office Services compiled the HIA, Permit Application and Conservation Management Plan for the restoration and management regarding the Farmhouse, *Waenhuis* and garden situated on erf 3828, Weltevreden Park, Gauteng Province.

The knowledge of Dr Janet du Plooy, Executive Manager of West Rand Office Services, in heritage matters and her extremely thorough research regarding the premises exceeded all my expectations.

The Heritage Impact Assessment was professionally done. The permit for the restoration of the structures and development of the Gable Office Estate including the declaration of the old farmhouse with the garden and *Waenhuis* as a heritage of local significance was done in the shortest time possible.

During the restoration of the farmhouse and waenhuis the knowledge of Dr Janet du Plooy in historical matters as well as her continuous support was much appreciated.

I can highly recommend West Rand Office Services as Heritage Consultants to any firm wishing to employ their professional services.

For more information on the competency of West Rand Office Services please contact the undersigned.

Kind regards,

André du Plessis (member)
